### To whom it may concern

Since 1959 Transocean Coatings is active in the manufacture and supply of marine- and heavy duty coatings. Transocean has a network of manufacturers, spread over all the continents, producing its range of coatings. Through the members network, Transocean paints is distributed to over 60 countries. This strong and local network enables direct and capable technical service at any time as well as factory fresh products.

Transocean offers a wide range of paints to cope with the needs of every operator. Whether it is a newbuilding or a maintenance job, Transocean has systems in place to protect your ship or facility. Examples of such products are the Transocean Cleanship range of tinfree selfpolishing antifoulings and Transpoxy Masterbond, a versatile surface tolerant epoxy which complies to IMO-PSPC standards for Ballast tanks and Crude Oil tanks.

Transocean paint systems meet the stringent specifications required for the offshore- and protective coatings market such as those described in Norsok M-501 and ISO-20340 standards. Transocean is an approved supplier with major international clients such as Petronas, YPF, ADNOC and Shell.

Transocean is very pleased to announce it has signed an agreement with Rangin Zereh Industrial & Chemical Co. who will have **the sole and exclusive rights** for producing, marketing and selling Transocean Coatings in Iran. Rangin Zereh is a leader in the Iranian market having state-of-the-art production facilities and meeting all quality control standards of Transocean. Rangin Zereh is certified according to ISO 9001, ISO TS 29001, ISO 14000 and OHSAS 18001.

Rangin Zereh will produce the Transocean products according to the latest technology standards. For more information, contact Rangin Zereh or visit us at the Iran Oil Show 2019.
